

5th Grade News

What are we learning this month?

English Language Arts

In Unit 5, students analyze why characters take risks. Often in life, and in stories, people must determine whether the risk being taken is worth the potential award. Students also look at decisions characters make and what that tells readers about what the character values. Students also discuss and identify elements of fantasy stories.

Mathematics

Students are finishing up Unit 6. 5th Grade Mathematics, students have been working with algebraic thinking and identifying relationships. 5th Grade Advanced students have been working analyzing graphing and measure of center.

Health

Students will be completing Units 3 and 4 of their Health Curriculum. These units include information about HIV/AIDS and the changes they are to experience as they grow up/.
